PROFILE SNAPSHOT

- Advanced Technical Proficiency: Skilled in Swift, Objective-C. Extensive experience with Xcode, UIKit, SwiftUI, Combine, CoreData, and Git. Adept in MVC, MVVM, and MVP architectures.

- Diverse Project Experience: Successfully developed and contributed to a range of iOS applications including PayZapp, Cipher SDK ACS/CIAM, Shell Go+ India, Levis AOS, Sambhavana(GSK), BookMyShow, and GBI Data Browser.

- Educational Background: B.Tech. in Computer Science & Engineering from Rajasthan Technical University, complemented by a solid academic foundation.

WORK EXPERIENCE

Zeta , Senior Software Development Engineer	08/2021 – Present
Capillary Technologies , Software Development Engineer-2	12/2018 – 08/2021
BookMyShow , Mobile Developer-iOS	06/2017 – 11/2018
Exilant Technologies pvt ltd , Software Engineer Trainee	11/2015 – 06/2017

ACADEMIC CREDENTIALS

B. Tech. (Computer Science & Engineering) , Rajasthan Technical University	2014
68.3% in 2014.	
Senior secondary examination , Kendriya Vidyalaya No2 Jodhpur Cantt, Jodhpur(Raj)	2010
With 70% in 2010.	
Secondary examination , Kendriya Vidyalaya Masimpur cantt, Silchar (Assam)	2008
With 73.4% in 2008.	

KEY SKILLS

Programming Language: Swift, Objective c, Java

IDE: Xcode, Android Studio

Framework: UIKit, SwiftUI, Combine, CoreData, XCTest

Dependency Injection: Needle

Operating System: iOS, macOS, Windows

Version Control: Git

Dependency Manager: Cocoapods, Swift Package Manager

Architecture & Design: Clean Architecture, MVC, MVVM, MVP

PROJECTS

PayZapp, iOS developer

PayZapp is your one-stop online payments app. Download PayZapp app for bank to bank money transfer via BHIM UPI and instantly scan & pay any QR at shops & online websites/apps. Technologies Used : SwiftUI, UIKit, Swift 5,Objective c Link : <https://apps.apple.com/in/app/payzapp-upi-payment-recharge/id6443480917>

Cipher SDK ACS/CIAM, iOS SDK developer

1. Access control server(ACS) SDK offers a seamless payment an experience by swipe2Pay and Super pin. 2. Customer identity and access management (CIAM) is an authentication and authorization platform for banks. Responsibility : iOS SDK Development. Technologies Used : Objective c, Keychain, UserDefaults, Push Notifications Link : Currently integrated in (One card, Payzapp(HDFC))

Shell Go+ India, iOS App Developer

Shell is a British-Dutch multinational oil and gas company. Responsibility : Design and development of iOS App and integrating wit the backend API's. Involved in implementing the application from requirements specified Technologies Used : Swift 5, Alamofire, UIKit, UserDefaults, Push Notifications Link : <https://apps.apple.com/in/app/shell-go-india/id1539429518>
